

Update Release Notes for version 5.29, released April 4, 2018

Please be sure to install the updates when prompted. Your device must be online to receive the updates.

New Features

- Campaigns (Promotions and Loyalty) - OPTIONAL MODULE TO BE ENABLED BY APPROVAL ONLY
 - Campaigns are Setup and Managed in OpSuite (version 5.29 or later).
 - OpSuite POS will automatically provide discounts, points earning and redemption, etc. as set up in the Campaigns module in OpSuite.

Bug Fixes and Updates

- Large return transactions now display the total of the return prior to tendering.
- Email receipts with a large number of items successfully complete the transaction upon tendering.
- Refunding an item with a negative price no longer causes an error.
- Purchasing multiple kits correctly adjusts the quantity for all items included in the kit.
- Transactions with shipping amounts are now synced properly.
